PRODUCT PARTS INCLUDED

Attentions:

1. Assemble arms (B) to the seat (A) with screws (I).
2. Fix the mechanism (C) under the seat with screws (H).
3. Insert wheels (G), cap (F) and gas bar (D) onto base (E).
4. Insert the whole seat into gas bar.
5. Please loosen all screws fully first, adjust the arms symmetric, then reassemble by tightening each screw only around 25% at a time evenly across all fixing points.
6. Check all parts regularly and clean with soft cloth.
